

ABOUT US

Coffee is a brewed beverage made from roasted coffee beans, which are the seeds of flowering plants in the Coffea genus. Coffee, we feel, is more than a beverage: it is a culture, an industry, an art, a science, and a passion.

Finest Selection

Our shop is offering beverage and snacks for our loyal customer. Wi-fi is also available for them to work and study while drinking their coffee. We are not merely a location where you may stop in for a cup of coffee in the morning (although you are welcome to do so), but also a place where you can sit and enjoy that cup of coffee.
